Message from Dean Rodolphe el-Khoury

Thank you for participating in the University of Miami School of Architecture's Career Forum! At our School, the Career Forum represents a critical component of our students' future successes and is part of a multi-pronged strategy for joining the classroom with the workplace. We are excited to welcome you back to our Coral Gables Campus for the 2022 event. This year we operate in a hybrid mode, with an in-person event in our Lakeside Village venue on Thursday, March 3rd, and a virtual option on Friday, March 4th.

The Career Forum aligns our students with internships, immersing them into real-world situations that complement their coursework with the invaluable lessons of professional experience. For graduating students, the Career Forum optimizes the transition to the profession by offering opportunities in some of the leading offices nationwide—trusted partners whose exceptional capacity to extend and intensify the learning process is sought and valued.

U-SoA's commitment to link academic excellence to professional relevance is implicit in the students' profiles featured in this booklet. They communicate the career aspirations of future professionals preparing for the next stage of their journey. The profiles also demonstrate the diversity in backgrounds, orientation, ideas and skills that characterize the student body. This diversity is in the school's DNA. It empowers our students in addressing current environmental and social challenge and in creating a more beautiful, equitable, and environmentally responsible world.

We thank you for your support in considering our students for employment and in bridging real-world practice with academia. Together, we pave the way for our future design leaders and take a valuable step in assuring their success.

U-SoA Professional Engagement

U-SoA has expanded internship programs that connect our students to professional, non-profit and governmental offices globally.

PAIR | Professional Advancement, Internship + Research

Programs to immerse students off campus within host offices as both interns and research collaborators. Our network of partner offices are committed to mentoring and collaborating on research with students.

Integrated Design and Professional Sponsored Studios

U-SoA brings professional leaders and real-world design challenges into the classroom to drive innovation and engagement among students.

Visiting Critic and Emerging Practitioner Fellowship

Visiting Critic program pairs national and international acclaimed architects with U-SoA faculty to co-teach design studios. Our Emerging Practitioner Fellowship supports up and coming professionals committed to expanding and advancing the culture of architecture and design through innovative practice or research.

Career Services

Together, University of Miami Toppel Career Center and U-SoA offer a multi-prong strategy to connect and support students, alumni and employers. Students benefit from: portfolio and resume workshops, interview skills, panel discussions, skill assessments, career crawls, mentoring, shadowing and career forums. UM is a committed partner in the students' employment goals and career building.

ACSA Open Steel Competition: South Beach Florida, Living Sea Wall

Bregenz Kunsthaus Remix

The World Art Hub is built as a dynamic symbol in the face of Miami's continuing resistance to overly long hotels, hurricanes, high rents, and the impending climate change of rising temperatures and sea level rise.

Rooted in Miami's cultural life and the World's living artists archive a living organism of human creation and expression unfolds in a vertical cluster of artists, performances, and experiential activity. Visibly displayed on a multitude of ramps, working and living galleries, seating areas of bars, clubs, restaurants and artists living in and working through the vertical space - on an exhibition space, an artist's working table the walking edge of board.

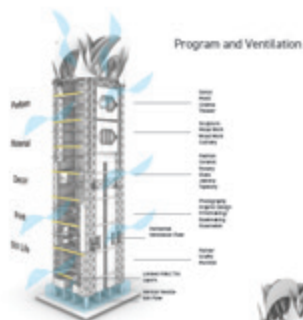

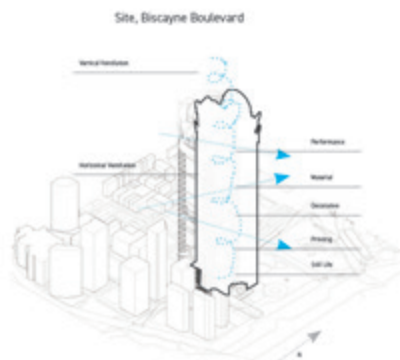

Miami Open Air Hall, a set out of Miami's resistance to strengthen heritage in a long cultural archive.

Miami Openness Culture in the face of rising sea levels and increasingly unpredictable weather allows to integrate the light through connecting the top floor.

Miami Art Hub is all the other activities in one vertical space for all the other activities of Miami.

A flexible building of connection and of unity, Miami Art Hub is the heart of Miami on the World City Map in the center of the city and the world.

Work Experience

Architect Astrid Diaz | Puerto Rico | Summer 2020

- Residential Housing. Designing Diaz's Casa Segura, PR. This house targets citizens who have earthquake prone unsafe houses and are under affordable housing. I followed up the continuation of the project by finishing the back facade designs and doing other visual forms of representation.

Arquitez | Victor Villegas | Puerto Rico | Summer 2020

- Commercial Buildings. Isla Verde Ritz Carlton under construction. I assisted architect Villegas in identifying the hotel's non-load bearing walls due to Maria's hurricane aftermath. I made a proposal design for Hospital Menonita de Caguas in Puerto Rico. I designed a cafeteria for the hospital's rooftop terrace with an elegant outdoor structural pergola and roof shading system.

Álvarez-Díaz & Villalón | Puerto Rico | Summer 2021

- Residential Housing. I worked on a set of demolition and proposed plans for Residencial Manuel A. Pérez in Puerto Rico. I assisted in construction management papers and design proposal presentations.

il labirinto | venice, italy

illego road & game network

il Labirinto was our development for a mixed-use residential and commercial development set in the city's integrated community plan on the north-end of San' Erasmo in Venice. The site fronted on the north-west end of the island and is in close proximity to a regular ship, large community health and playgrounds, a public marketplace, and several other public parks and stages as well as a school for the boys. Our development allows for ideal use of the site by incorporating intimate semi-private courtyards with large glass facades. The goal is of increasing program and circulation of residents and guests within the building by the use of weaving paths, and areas the connection, thus reweaving a maze.

Lucas Rosen

B.Arch
Minor in Advertising
Class of 2023
lsr59@miami.edu

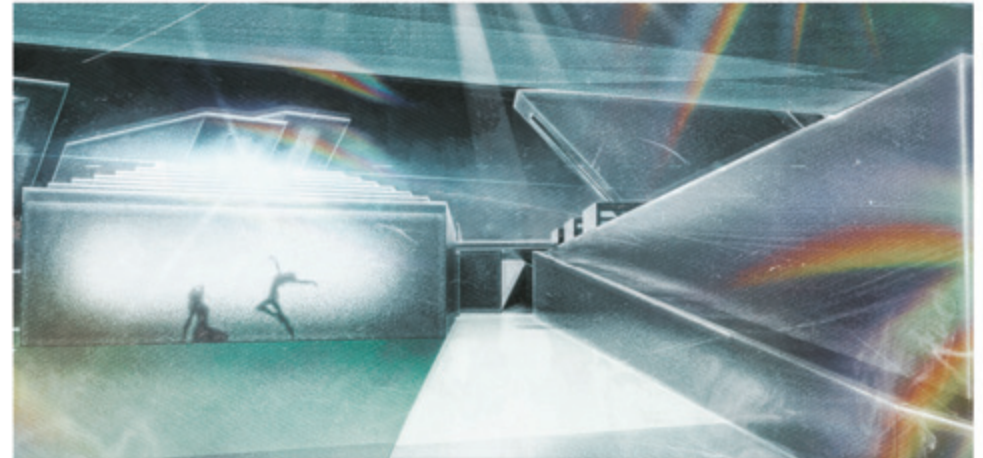

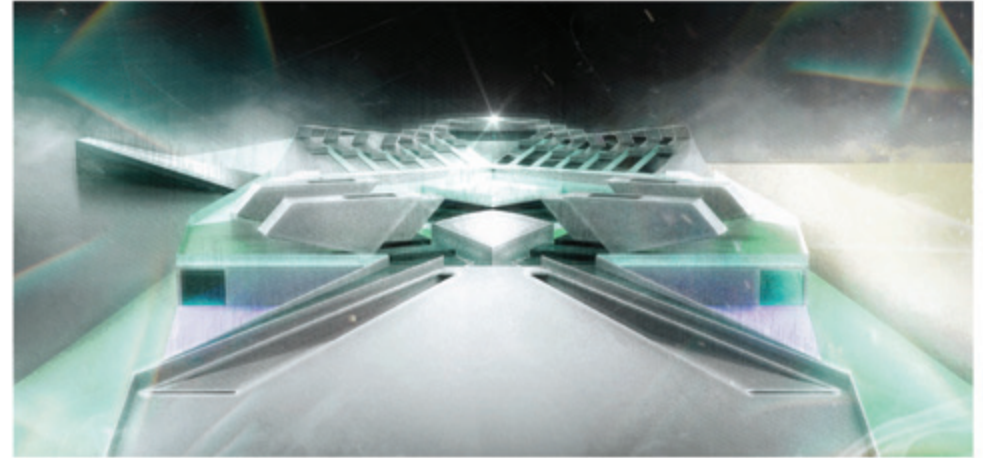

Graphic Designer at UM Student Affairs Communications and Marketing Office
Statistics Research and Graphic Design intern at MLB.com
UM's "What Matters to U?" Graphic Designer
Community Assistant (RA) on campus

Awards

UM Isaac Bashevis Singer Scholarship Recipient
UM Foote Fellow
American Advertising Federation "Silver ADDY Award" for brand campaign

Design Personality

1. Whether designing a building or branding a company, all my projects are approached using skills I've developed as both an architecture student and as an experienced graphic designer.
2. My design process is not always linear. To stay on track, I design with a solution-driven approach and never forget about a project's core aesthetic and main idea.
3. Brainstorming design solutions is my favorite part of a project, so why limit myself to a single concept? The more ideas, the better. Solutions should bounce around like a web rather than always being so cut and dry.
4. Functionality is key, but things should also look good. Stimulating and beautiful design is the goal.
5. I always look to the past for ideas. But, just because I have not seen it done before does not mean I am discouraged from trying to do it for the first time.
6. Design should be fun. Boundaries should be pushed and my personality should display throughout my work.

Soran Rostami

M.Arch
Certificate in Construction Management
sxr1275@miami.edu
(786) 302-4359

Experience

University of Miami, School of Architecture Coral Gables, FL
Research Assistant | January 2021 - Current
Creating 2D / 3D drawings of Mid-Century Architecture 1940 – 1970 in Cuba, creating digital exhibition of the drawings in Arc GIS and Arc GIS Pro.
Creating 3D model of Rome neighborhoods for the book "The Other Rome" by Jean-Francois Lejeune.

Activity

Captain Leader of my House (Bears) (Associate Student Body) - Academia Cotopaxi
We help organize events at school throughout the year. We are members of the community that are the bridge from students to faculty.

Work - Actor - Advertisement that promoted online studies
I auditioned for a role for an advertisement that advocated for online school due to the pandemic. I was the only actor present on set.

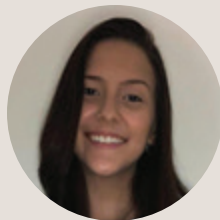

Community Service

- Alas de Colibrí, 2019
- Organization that helps victims of human trafficking. We gave them the power to use their voice and speak up for themselves.
- Educating and Empowering for Equality, 2018-2021
- Club that talks about social issues in our school and helps propose ideas to solve current issues. We advocate for equality.
- The Giving Back Club, 2019
- Organized a charity event that donates school supplies for an elementary school and Christmas toys.
- Mutts and Meows Rescue, 2017-2018
- Helped dogs and cats get adopted into loving families. We put them in their cages, we walked them, but mostly gave them love and care.
- Tree Hugging Club, 2019 - 2021
- Planted 500 trees.

As the world's trusted infrastructure consulting firm, we're committed to managing our business with the utmost responsibility and to always strive for better – whether by reducing emissions, creating social value or diversifying our senior leadership and workforce. We're planners, designers, engineers, scientists, consultants and program and construction managers driven by a common purpose to deliver a better world – and we want you to be a part of it.

api(+), ArchitecturePlus International

Tampa, Florida

www.apiplus.com

info@apiplus.com

ArchitecturePlus International, api(+), is a multidisciplinary design firm offering architecture, interior design, graphic design and signage, and industrial design. We develop consumer-centric concepts for retail driven environments. We specialize in food retail, restaurants, specialty retail and retail centers for a wide variety of national and international clients. Our work has been recognized for delivering differentiated, on-target solutions that connect with consumers and outperform the competition.

Brailsford & Dunlavy

Washington, D.C.

www.bdconnect.com/careers

csanchez@bdconnect.com

Advance your career while advancing community. Join the B&D team. Brailsford & Dunlavy is a program management firm with in-house planning capabilities. Our purpose is to inspire and empower organizations to maximize the value of

investments that advance communities. As catalysts for building community, we maximize value and mitigate risk for our clients every step of the way. We take an idea, make it a viable project, and manage it through ribbon cutting and into operation. Brailsford & Dunlavey is a national firm with offices in Austin, Atlanta, Boston, Chicago, Charlotte, New York City, Northern California, Southern California, and Washington, D.C. —and features a client base in all 50 States. The Higher Ed P3 Resource Center—the industry’s go-to place for information on this dynamic market—is powered by Brailsford & Dunlavey. Visit the site at p3resourcecenter.com.

Building Engineering-Consultants, Inc.

Destin, Florida

www.be-ci.com

sbaker@be-ci.com

BE-CI is a licensed professional building envelope and engineering firm that specializes in consulting for the entire building envelope. We have been in business for over 25 years working with clients during design, new construction and current buildings in service.

Coastal Construction

Miami, Florida

www.coastalconstruction.com

careers@coastalconstruction.com

Coastal Construction Group, and the Murphy Family, have been building throughout South Florida for five generations. Operating in Florida for more than 25 years, Coastal employs more than 400 people and has developed a distinguished roster of public and private clients. Coastal focuses on nine primary markets: Commercial, Hospitality, Education, Residential, Mixed-Use, Interiors, Worship, Historic Restoration & Disaster Recovery. Coastal has won numerous national, regional and local awards and recognition for

professional and philanthropic achievements including being recognized by Engineering News Record (ENR) Southeast as “Contractor of the Year” in 2014. In addition, ENR honored Chairman and CEO Tom P. Murphy, Jr., with the first-ever “Legacy Award” for his lifetime achievement in the construction industry. Coastal receives these recognitions largely in part because we excel at being able to adjust to client needs and project challenges. Coastal takes great pride in its track record of over 85% repeat clients and design teams. Coastal’s passion for excellence extends beyond the job site. Among the company’s core values of Integrity, Safety, Quality Workmanship, and the Maintenance of Personal, Long-Term Relationships is its strong emphasis on being a trusted and concerned community member. Coastal Cares, our philanthropic arm, continually provides monetary and in-kind contributions to hundreds of organizations and businesses throughout South Florida.

CPH, Inc.

Sanford, Florida

www.cphcorp.com

HR@cphcorp.com

CPH, was originally founded as a small branch office of a larger national firm in the 1960’s. The Team started performing services through this firm for local municipal clients in Florida. In 1981, when the national firm decided to close the office, the local assets were acquired by three employees and CPH was started. Many of the same clients that were served by the team in the 1960’s are still with the firm, and CPH has now grown to over 240 employees in 16 offices. These offices are located throughout Florida, Georgia, Maryland, Connecticut, Texas, and Puerto Rico.

CPH, throughout this time, has diversified our capabilities with the addition of on-staff resources that include licensed architects, surveyors, landscape architects, planners, traffic/structural & MEP engineers, and construction

personnel. Our team has successfully provided consulting services including environmental sciences for clients on small to large projects throughout the United States and Puerto Rico. These projects have included retail, residential, office, infrastructure, and water/wastewater treatment systems.

Current Builders

Pompano Beach, Florida

www.currentbuilders.com

tphilipp@currentbuilders.com

General Contractor in business for 50 years focusing on Multi Family Mid Rise and Mixed Use Retail Space throughout Florida. As a GC we are unique in that we have our own self performing shell contracting division in house and also a wall panel manufacturing division. Employee Owned and Operated!

de la Guardia Victoria Architects & Urbanists

Miami, Florida

dlgvarchitects.com

veronica@dlgvarchitects.com

de la Guardia Victoria Architects and Urbanists has been committed to the design of buildings and urban places inspired by history, theory and the traditional building arts since 1987. We believe it is the duty of the architect to produce an architecture which, in the words of Alberti, “gives comfort and the greatest pleasure to mankind, to individual and community alike”. Classical architectural principles, vernacular traditions, folklore and an understanding of contemporary materials and methods of construction contribute to a conception of architecture which is at once reflective and current. As traditionalists, we recognize the unique characteristics of individual sites and localities and appreciate the ability of architecture to define a sense of place and to encourage the well being and health of our cities and landscapes. We promote working with indigenous materials and local craftsmanship together

with innovative technologies to establish meaningful relationships between buildings and their respective physical and cultural context. In our practice design is of equal value to construction, and the same level of craft dedicated to the production of drawings in the studio is applied to the supervision of building at the job site. We encourage close cooperation with owner and builder to ensure that building projects respond fully to the needs of the client, program demands, and a sustainable environment. Regardless of size and budget, every project is a welcomed opportunity, and the completion of buildings is a cause for celebration and a reiteration of our commitment to provide an architecture and urbanism of discernible beauty and civic virtue.

DeSimone Consulting Engineers

Miami, Florida

www.de-simone.com

HR@de-simone.com

Founded in New York City in 1969, DeSimone Consulting Engineers provides high-quality, creative structural engineering services to architects, owners and developers. DeSimone performs structural analysis and design for all types of buildings at all project phases. Known for the highest quality of service, the firm provides each client with personal, dedicated and inspiring engineering.

With locations worldwide, DeSimone’s offices are organized to support clients in the US and worldwide. To date, DeSimone has designed projects in 40 states and 18 countries. DeSimone’s projects demonstrate the firm’s dedication to pursuing and developing superlative structures. The firm is listed on Engineering News Record’s Top 500 Design Firms. DeSimone’s approach is process driven, utilizing an open office and collaborative design environment. Communication and responsiveness are key strengths that facilitate the firm’s commitment to exceptional service and engender the creation of a better-built environment. DeSimone’s distinctive engineering comes from the firm’s strive for exceptional

and high performance structures. DeSimone believes that to be truly effective, the firm needs to practice with special emphasis on meeting client's distinctive and individual needs, their sensitivity to architectural design, provide effective communication and foster relationships, while promising functionality and connection to each project.

DPZ Partners, LLC

Miami, Florida

dpz.com

epz@dpz.com

DPZ creates benevolent urban places in the form of cities, towns and neighborhoods, which encourage walking, diversity and complexity. Our projects generate the physical framework for a fulfilling human existence. Safe, pedestrian-friendly streets encourage people to walk in and interact with their built and natural surroundings. A well-designed public realm, including “third places”, where people hang out beyond home and work, facilitates the creation of social networks and affiliations. Recent studies correlate the impact of the physical environment on human health and well-being. DPZ's built projects show that, given the choice, people enjoy living in sustainable communities. People seek out our neighborhoods instead of suburban enclaves because they are environmentally responsible, and because they promote fulfillment and well-being.

We love to share. Giving away our ideas allows others to create happiness and forces us to raise the bar. DPZ regularly appears in the news, delivers keynotes, spearheads movements, and earns awards because we share. We actively encourage all members of our firm to generously speak about and publish their ideas and experiences in the field.

Dwell Design Studio

Atlanta, Georgia

www.dwelldesignstudio.com

info@dwelldesignstudio.com

WHO WE ARE: Dwell Design Studio is here to save you from bad design, boring ideas, and faulty execution. We're notoriously accurate: producing some of the cleanest documents this side of the galaxy. We're methodically unconventional: designing clever spaces that aren't outlandish or lacking purpose. And we're solid people: easy to work with, fun to be around, and void of pretension. Sound different? Just wait until you work with us.

WHAT WE DO: We're multifamily experts, but why stop there? We also kill it when it comes to Mixed-Use, Retail, Interior Design, Mall Re-Developments, Highrise, Senior Housing, Student Housing, and Master Planning. Check out our website to see our projects!

WHERE WE STAND: Atlanta - Our HQ, y'all! DC - Where weekends = brunch and free museum trips. Orlando - The one with the weather we all want. Salt Lake City - Because architects can be outdoorsy too!

Ennead Architects

New York, New York

www.ennead.com

employment@ennead.com

We create architecture that shapes the public realm; this has been central to our practice since 1963. Our 180-person firm, based in New York City, works primarily with educational, cultural and scientific clients, including some of the most venerable institutions in North America: from Stanford to Yale Universities, from the American Museum of Natural History to the Clinton Presidential Library, from Carnegie Hall to the Standard Hotel on the High Line. Our diverse portfolio—including new construction, renovation and expansion, historic

preservation, interior design and master planning—ranges from museums and performing arts centers to complex laboratory, research and teaching facilities for higher education to a wastewater treatment plant. Through form, light and materiality, Ennead creates expressive architecture that embodies each client's mission and engages the user while shaping our place and time.

Fawley Bryant Architecture

Sarasota, Florida

www.fawleybryant.com

knaser@fawleybryant.com

Fawley Bryant Architecture is a firm committed to people. Serving the West Coast of Florida for over 27 years, we have built our reputation for exceptional partnership within the market categories of Commercial, Hospitality, Government, Education, Sports, and Municipalities. Guided by our core values, we continue to evolve and grow. With a focus on Sports and Education, our roster includes noteworthy clients such as the Atlanta Braves, Pittsburgh Pirates, Detroit Tigers, Miami Marlins, St. Louis Cardinals, and IMG Academy. While our work is of a national scale, we are committed to the betterment of our local community and frequently engage in volunteer activities, community wellness events and fundraisers. Our team is small but mighty.

Ferguson & Shamamian Architects

New York, New York

www.fergusonshamamian.com

psaba@fergusonshamamian.com

Mark Ferguson and Oscar Shamamian co-founded their practice in 1988 after meeting and working together at the legendary decorating firm, Parish-Hadley. As young architects versed in the eclectic language of residential interiors and committed to the art of harmonizing the old with the new, their practice offered a new vision of traditional American architecture adapted to the changing

needs of modern life. Every remodeled or new residence they have designed respects the cultural, historical and physical identity of the places in which they are built. Today, their portfolio of city apartments, houses and country estates, expresses a deep appreciation for historical styles, regional character, and the personal taste of their clients. Over the past 32 years and with the support of a talented and dedicated group of architects, renderers and administrative staff, we've grown and built an extensive body of work across the country and beyond. Dedication to excellence and service to clients is at the core of our practice. The diversity of location, character and scale of our projects reflects our ability to use traditional forms in varying contexts to address unique site conditions while accommodating the comforts and convenience of our clients. Collaboration has always been a keystone of our work.

We begin every project in partnership with our clients; interpreting their individual needs and dreams, and allowing their character and lifestyle to inform the greater architectural idea. The work is bolstered by our strong commitment to artistic integrity and a focus on detail, the best use of materials, and exceptional workmanship. Our holistic vision of design has led to longstanding relationships with many of the country's top decorators, landscape architects, artisans and builders. Collaboration is also crucial to our internal process. Working with small teams within our office allows us to be focused and flexible, ensuring a thorough consideration of every design and a high level of quality control.

Our work has been featured in a variety of magazines, newspapers, and books, including *Architectural Digest*, *Elle Décor*, *Veranda*, *The World of Interiors*, *The New York Times*, *Town & Country*, *Galerie*, *Milieu*, *Traditional Home*, *Period Homes*, and *House & Garden*, among others. We have also been honored with many awards, including the Institute of Classical Architecture & Art's Arthur Ross Award, the Bulfinch Award, the Mizner Award, several Stanford White

and Palladio Awards, as well as The Preservation Foundation of Palm Beach's Schuler Award. Our first monograph, *New Traditional Architecture, Ferguson & Shamamian Architects: City and Country Residences* was published by Rizzoli in 2011. Our second book, featuring a new array of projects and collaborations, will be published in the Fall of 2021.

FGS Design, LLC
Palm Beach, Florida

www.fgs-a.com
info@fgs-a.com

G. P. Schafer Architect, PLLC
New York, New York

www.gpschafer.com
careers@gpschafer.com

At G. P. Schafer Architect, we believe that the virtues of old houses—their sense of history, their time-worn comfort, the way they sit on the land with an air of inevitability, their elegant proportions and details—can be achieved in a new house today. Whether focusing on new construction or historic house renovations and restorations, our award-winning firm takes the best of traditional architecture and translates it for the kind of connected, welcoming spaces that suit modern life. We come to each of our projects with a unique understanding of a variety of architectural traditions and building contexts, along with a singular appreciation for the importance of landscape and interior decoration, all of which inform the rigorous approach we take to design and construction.

Horton Lees Brogden Lighting Design

New York, New York

hlblighting.com

eschrott@hlblighting.com

EOE STATEMENT

We are an equal employment opportunity employer. All qualified applicants will receive consideration for employment without regard to race, religion, creed (which includes religious dress and grooming practices), color, citizenship, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, familial and marital status, sex (which includes pregnancy, childbirth, breastfeeding, and related conditions), gender, gender identity, gender expression, age, sexual orientation, military or veteran status, domestic victim status, caregiver status, or any other consideration made unlawful by federal, state or local laws, ordinances, or regulations. Horton Lees Brogden Lighting Design takes affirmative action in support of its policy to and advance in employment individuals who are minorities, women, protected veterans, and individuals with disabilities.

ABOUT THE ORGANIZATION

Horton Lees Brogden Lighting Design is an internationally recognized design firm focused on architectural lighting, including electric lighting and daylighting, for both interior and exterior environments. We are inspired by the artistry of light and its impact on the natural and architectural environment. We infuse our core values of artistry, legacy, curiosity, balance, and integrity into every project. We thrive with intriguing projects that engage us conceptually and challenge us technically. We seek to enhance our clients' experiences and create a legacy of design that respects its environment and promotes a better future. Our services are customized to provide the best lighted environments to meet our clients' needs. HLB is a collaborative firm that values flexibility and work/life balance filled with dynamic people whose enthusiasm for what we do infuses both our professional and personal lives. We are driven by an experienced team that is rewarded for its originality, commitment, and leadership. Our principals are engaged in every project from concept to commissioning to ensure the clients' needs are realized at every step. Our design and technical experts hail from many parts of the world and form the basis for HLB's proven ability to produce outstanding, award-winning designs. As designers, we promote a positive vision of the future, based upon the belief that many of the environmental problems we face are design challenges. We believe a successful project starts with a collaborative mind-set in support of a common goal: to achieve energy-effective, high-quality environments for owners through intelligent lighting design, design that holistically integrates daylight with supplemental light and controls. Our designers work closely with owners and architectural teams to optimize the integration and control of natural and electric lighting for energy-effective designs of the highest excellence.

Employer Testimonials

Torti Gallas was thrilled to participate in the University of Miami School of Architecture Career Forum once again! With more than 20 current and former employees who are graduates of the U-SoA, we very much appreciate our long-standing relationship with the University and look forward to the opportunity to welcome student interns and members of the Class of 2022 to our firm!

Caitlin Smith, Torti Gallas + Partners

I'm always excited to come back to the U-SoA and see what new and innovative ideas the students are creating. The passion and commitment from the staff certainly rubbed off on me when I was a student and I'm proud to see it's just as prevalent today.

Joe Epstein, RS&H

In addition to the architectural design skills, the representation and graphic communication of the work is both incredibly clear and thoughtfully presented serving to further the design with each image. This is a major factor why we come to the U-SoA Career Forum to Recruit.

Andrew Barnett, Pickard Chilton

RAMSA recruits from architecture programs all over the country and U-SoA students consistently remain top candidates for both our summer internship and full-time positions. We love coming home to the Career Forum every year and are excited to continue expanding our Miami community in New York City.
